- Available in mill or bronze finishes
- Superior fasteners for secure, long-term performance
- Robust profiles engineered for durability and strength
- In stock for quick shipping when your schedule can't wait
- Made in the USA

Other Accessories

PIVOT HINGE HOLE COVER

Instantly improve the appearance of your door or frame by covering the unsightly holes left by previous pivot hinge preps.

- Easy, self-adhesive application
- Approximately 1-11/16" wide × 31/32" high (1.695" × 0.972")
- Available in gray or dark bronze
- Keeps out insects, dirt and water

SHIM STOCK

Reduce clearance between the door and frame with Concealed hinges, or provide additional door inset from the frame with Full Surface and Half Surface hinges.

ALUMINUM SHIM STOCK

- Clear anodized
- No holes
- 95" long; 1/8" × 1-1/2"

FIRE DOOR SHIM STOCK **NEW!**

- Low carbon steel
- No holes
- 95" long available in 2 sizes: 1/16" × 1-1/2" and 1/8" × 1-1/2"

UHMW PLASTIC SHIM STOCK

- Translucent material blends in with door or frame color
- 100-foot roll available in 4 sizes: 1/32" × 1/2", 1/32" × 1-1/2", 1/16" × 1/2" and 1/16" × 1-1/2"

BUTT HINGE CUTOUT FILLER PLATES

Cover cutouts left by previous butt hinges.

- Perfect for storefronts and hollow metal doors
- Available in gray or black

HB375 DRILL BIT

SELECT's self-centering through-bolt drill bit makes installation faster and easier.

- .375" hole diameter; specially designed for our hinges
- Eliminates the need for a center punch
- Extra length saves time; no workarounds with a too-short bit
- End flutes prevent bit from "walking" side-to-side; get smooth, clean, accurate bores every time

SELF-CENTERING HINGE BIT **NEW!**

SELECT's easy-to-use self-centering hinge bit makes installation faster and easier.

- Accurately drill pilot holes for self-tapping, thread-forming screws
- 1/4" hex power bit shank fits all power bit and quick-change chucks
- 3/8" diameter nose bushing
- 11/64" HSS twist drill bit, sized for SELECT supplied hardware
- Replacement 11/64" HSS twist drill bit also available

MASONRY BIT

Designed for top performance, SELECT's masonry bit is perfectly fit to clear out behind hinge mounting screws (without damaging the mounting holes) in slush-filled (concrete) frames.

- 5/32" diameter
- 6" long, a useful length for many applications
- Asymmetric diamond-ground carbon-tipped, allowing for fast drilling and longer bit life
- Upgraded hex shank design allows for use in impact drivers and hammer drill/drivers for added versatility
- Milled U-flutes with deep-cut spiral for fast material removal
